

Education

INSAT

Networks and Telecommunications Engineering

Tunis

In progress

Bizerte Pioneer High School

Baccalaureate in Mathematics with an average of 18.12/20, **Highest Honors** distinction

Bizerte

2023

Experience

Learnify

Algebra Teacher

Tunis

Sept 2025 – June 2026

- Delivered online **algebra tutoring sessions** to high school and early university students through the Learnify platform
- Explained fundamental and advanced algebra concepts in a clear and structured manner, adapted to different student levels
- Prepared exercises, problem sets, and corrections to reinforce mathematical reasoning and problem-solving skills
- Mentored students in exam preparation and helped improve performance through guided practice and feedback
- Developed strong communication and teaching skills through remote, interactive instruction.

Keystone Group

Cybersecurity Intern

Tunis

July 2026 – Aug 2026

- Developed an **Active Directory Security Audit & Hardening Platform** with automated vulnerability detection, remediation, and PDF reporting
- Configured an AD lab and integrated **Kali Linux via SSH** for remote execution of **NetExec, Impacket, and custom security checks**
- Implemented detection for **Kerberoasting, AS-REP Roasting, username enumeration, Null Sessions, exposed AD credentials, Defender misconfigurations ...**
- Integrated **OpenAI gpt-oss-120b via Groq** for automated vulnerability analysis and remediation recommendations
- Developed a **security dashboard, vulnerability database, Quick Commands, scan management, and automated audit reports**

Leadership & Activities

Securinets INSAT

Tech Team Member

Tunis

Sep 2025 – In progress

- Participated in cybersecurity workshops and internal training sessions (reverse engineering , osint , cryptography).
- Contributed to CTF preparation and challenge solving within the team.(MOJO-JOJO CTF)
- Strengthened practical skills in Linux environments, penetration testing tools, and problem-solving under time constraints

CTF Player

Tunis

- **1st place in CyberSphere Advanced CTF 2026**, demonstrating strong expertise in **reverse engineering, and** advanced problem-solving under time constraints.
- **1st place in CyberCamp Android Reverse Engineering CTF 2025**, specializing in **mobile application reverse engineering and vulnerability analysis**.

Certifications

CCNA 1 & CCNA 2 (Cisco Certified Network Associate) – Cisco

- Covered networking fundamentals, routing and switching, IP addressing, VLANs, and basic network troubleshooting).

CPPS (Certified Phishing Prevention Specialist) – Hack&Fix

- Focused on phishing awareness, detection techniques, email security, and social engineering prevention strategies)

Google Cybersecurity Professional Certificate (In progress) – Google (via Coursera)

- Covered core cybersecurity concepts including threat analysis, network security, incident response, and security tools

Skills & Interests

Cybersecurity: Active Directory, Windows Security, Kerberoasting, AS-REP Roasting, LDAP, SMB, Vulnerability Assessment, Penetration Testing

Tools: Kali Linux, NetExec, Impacket, Nmap, Wireshark, Hashcat, Burp Suite, GDB/IDA

Programming : Python, C/C++, PHP, JavaScript, HTML/CSS , Java

Networking : TCP/IP, Routing & Switching, VLANs, Cisco Packet Tracer

Language: Arabic (Native) , English (Fluent) , French (Proficient)

Interests: Football , Driving , Gaming
